# pandoc-beamer-notes

Sebastian Höffner

March 2017

# How to compile

Remember to compile using a command similar to this:

```
default:
    pandoc -t beamer -V classoption=notes \
        --filter pandoc-beamer-notes \
        -o presentation.pdf \
        presentation.md
```

# The plain LaTeX way

The second slide contains latex notes like this:

\note{A very simple note to appear on the note page.}

└─The plain LaTeX way

The second slide contains latex notes like this:

\note{A very simple note to appear on the note page.}

A very simple note to appear on the note page.

# Markdown in notes in LaTeX

Markdown can also be used inside notes:

```
\note{
* Bullet *one*
* Bullet two
* Bullet three
}
```
